DETAILED ACTION

Claim Rejections - 35 USC § 103

1. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

2. This application currently names joint inventors. In considering patentability of the claims under 35 U.S.C. 103(a), the examiner presumes that the subject matter of the various claims was commonly owned at the time any inventions covered therein were made absent any evidence to the contrary.

Applicant is advised of the obligation under 37 CFR 1.56 to point out the inventor and invention dates of each claim that was not commonly owned at the time a later invention was made in order for the examiner to consider the applicability of 35 U.S.C. 103(c) and potential 35 U.S.C. 102(e), (f) or (g) prior art under 35 U.S.C. 103(a).

3. Claims 10 and 14 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stunden (USPN 389,336) in view of Stone (USPN 4,261,469) as previously applied.

Regarding claims 10 and 14, Figure 1 of Stunden shows a clothes drier having the recited freestanding and collapsible structure of two attachment members A,B and at least a pair of

Art Unit: 3711

cords P suspended parallel to the ground and to each other. Stunden does not explicitly describe the cords to be elastic, the cords are described to be stretched between attachment members A,B. See lines 42-44. To the extent that the Stunden lines are not elastic, it would have been obvious to one of ordinary skill in the art to make them elastic in view of Stone who discloses that clothes lines are old and well-known in the art to be made from elastic cords. See Stone at Figure 1 (line 14) and the bridging paragraph between columns 2-3.

Although the Stunden clothes drier is not a golf trainer, *per se*, a recitation of the intended use of the claimed invention must result in a structural difference between the claimed invention and the prior art in order to patentably distinguish the claimed invention from the prior art. If the prior art structure is capable of performing the intended use, then it meets the claim.

Allowable Subject Matter

4. Claims 11-13 and 15-17 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 3711

Response to Arguments

5. Applicant's arguments filed 08 February 2006 have been fully considered but they are not persuasive.

Applicant's arguments relative to Stunden and Stone do not appear to be directed to the aspects on which reliance is made. The test for obviousness is not whether the features may bodily incorporated into the structure of the primary reference; nor is it that the claimed invention must be expressly suggested in any one or all the references. Rather the test is what the combined teachings of the references would have suggested to those of ordinary skill in the art. In the instant case, Stone is only provided to show the well-known teaching of the use of elastic cords as clotheslines. Further, although Stunden and Stone were not intended to be used as a golf trainer, it is noted here that the claims are directed to apparatus claims and not method claims and it is not necessary that the prior art suggest the combination to achieve the same advantage or result discovered by applicant.

Conclusion

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

Art Unit: 3711

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
